

Friday 5th June

Ovals and Stars

Our numeracy focus this week is **number bonds**.

Activity 1

Now that you have had lots of practice using concrete objects to help you learn the number bonds for 10, try and write out the number bonds from memory.

You can write the number bonds using coloured pencils, chalk, paint or on your whiteboard.

Activity 2

Play the number bonds for 10 game on Topmarks. To play, first lick on 'number bonds' then 'make 10'.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Activity 3

After you have played the 'make 10' game on top marks, you can have a go at playing the 'addition within 10' game. Click on 'number bonds' then 'addition with 10'.

Remember to count on when adding.
