

Monday 22nd to Friday 26th June

Optional task

You are going to do some self -assessment. This is really important as it allows you to think about what you have done really well and what you could do even better to improve!

Look at the questions below and tell someone at home your answers. You can also draw a picture or write a sentence.

1. What 3 things have you learned in school this year? (e.g. how to spell red words, how to play co-operatively with others, how to count to 50)

2. What do you think you have done really well at in school this year? (e.g. remembering finger spaces between words, counting forwards and backward to 50)

3. What would you like to get better at in school next year? (e.g. working on your hand writing, counting on when adding 2 numbers, asking more questions in class)
